Subject: Incorporating Partnership Plans into New Program Actions

As a result of the Commission's discussion of the Workforce Partnership Plans (*Indiana Code 20-1-19.5*) at its Friday, February 10 meeting, the Commission requests that beginning March 1, 1995, each new program proposal for a technical certificate or an associate degree in an occupational field (see attachment), which is submitted to the Commission for action, should include a response to the following request for information:

Please indicate, by specific references to each relevant Workforce Partnership Plan, how the proposed new program is consistent with the objectives of each Plan. In addition, please detail how the proposed program (1) articulates with related secondary and adult technical instruction/programs and (2) makes use of any underutilized facilities and equipment in the partnership area, including resources at the secondary level.

The response should be inserted at the end of the program proposal narrative, just in front of the standard Tables 1, 2A, 2B, and 3. For occupational technical certificate and associate degree programs submitted prior to March 1, staff will review the extent to which each proposal is consistent with each relevant Plan, and, if necessary, will request additional information.

— APPENDIX E —
OCCUPATIONALLY-SPECIFIC DEGREE PROGRAMS IN INDIANA

In general, academic degree programs are classified as occupationally-specific only after detailed review of the program description. However, for most purposes, programs are classified as occupationally-specific if (1) they result in a degree or certification below the baccalaureate level, and (2) they appear in the list below.
